

BOTTLEBUDDIES® - BOTTLESTOPPER WITH 2CLICK FUNCTION

No more wine in the fridge, no more bees in the wine, just fresh drinks all the time...

The 2CLICK FUNCTION enables BottleBuddies® to seal almost every bottle due to its flexibility. They are not only functional utensils, but funny designed gifts as well.

FUNNY & FUNCTIONAL

BottleBuddies® have a flexible rubber seal which has three optional widths. You can adjust the seal to your bottle by holding on to the "barrel" and twisting the head. Due to their flexibility, BottleBuddies® can be used for almost every bottleneck. By sealing your bottle with BottleBuddies® you will keep your drink fresh and can store it lying in the fridge. Of course, BottleBuddies® also work with carbonated drinks as sparkling wine, champagne or alike.

EXCLUSIVE BRAINSTREAM DISTRIBUTION

From 2010 BRAINSTREAM started to distribute BottleBuddies®, which have been designed by DESIGNHANSA in Essen, Germany, exclusive for the German market.

There are four different BottleBuddies® pairs available. Boy and girl, mother and father, grandm and grandpa and our two guys. They only differ in form, not in function.
